ADDRESS OF WELCOME

Parents, Teachers, Fellow Students, and Friends:

As president of the Senior Class of 1961, I welcome you to our Class Day exercises.

As we look back on our four years of high school, we are cognizant of our accomplishments as a class as well as our accomplishments as individuals. However, we realize that these would be nonexistent if it weren't for the undying faith of our parents and the understanding and guidance of our teachers. Thanks, Mom and Dad, and sincere thanks also to the faculty and to our principal, Mr. Shaw.

We truly hope that we can uphold our motto, "With Faith and Courage—Success," and that we can look back with pride and admiration on the imprint that we are leaving at Millbury High School.

I hope you will enjoy our program and that it will recall for you some of the happy days that you spent in high school.

Brenda Moorey

Bless This Class

Bless this class, oh Lord we pray,
Help us as we go life's way.
Bless our teachers, friends indeed,
Always there when we're in need.
To our parents on this day,
From our hearts, we'd like to say,
Thank you for the help you gave,
And your understanding ways.
Faith and courage, then success,
Is what we ask from Thee.

CLASS MOTTO: With Faith and Courage—Success.

CLASS COLORS: Yellow and white

CLASS FLOWER: Carnation

CLASS HISTORY

My diary lay beside me, a motionless object embodying all the animation and joy of years before. As I leafed through its pages, the many good times and accomplishments of our four years at M.M.H.S. were vividly brought to mind. Turning back to the very first entry, I began to relive these important years.

September 4, 1957—This marked the day when we timidly took the most eventful step which brought us from a seemingly carefree life to one which could be maintained only by diligent and conscientious toil. After the newness of high school had worn off and we had become accustomed to the routine, we settled down and elected the officers who were to lead us through the first year of the final phase of our public education. Those elected were James Graves, president; Betty Ann Reeves, vice-president; Bonnie Madsen, treasurer; Evelyn Greene, secretary; and Robert Taft, class captain. Soon after, Brenda Moorey and Rita Collette were chosen to represent our class on the Student Council, along with James Graves, our president.

The talents of our class were channeled in many varied directions. The Library Staff, Talent Group, Dramatic Club, Debating Club, Glee Club, and French Club received many able and enthusiastic supporters. The Band, which attracted many of us who were musically inclined, included Elaine Wishneski, Evelyn Greene, Chester Stencel, Sandra Lindberg, and Bonnie Merrill. Those members of the *Reflector* staff who helped maintain its high standards were Beverly Akstin, Ellen Molis, Betty Vegnone, William Monigle, and Kathleen Lilley.

Another accomplishment of the class was the appearance of four freshmen—Wilfrid Dufour, Paul Dane, David Broad, and Gail Vaillancourt in the school's annual play entitled *You Can't Kiss Caroline*.

Football season drew a few of our athletically inclined. Those on the team were James Graves, Richard Gonyea, Harry Hicks, and Brian Modig. These boys were ably rooted on by Brenda Moorey and Susan Keyes, our freshman cheerleaders.

The girls' field hockey team proved to be an attraction for Kathy Kotel, Barbara Santon, Mary Hillemansen, Judy Krumsiek, and Shirley Masse.

With the advent of basketball season, Shirley Masse, Gloria Russell, Bonnie Madsen, Arline Nelson, Barbara Santon, Gail Johnson, and Judy Krumsiek added great strength to the girls' team while Frank Parella and Robert Carrignan made a gallant effort for the boys'.

Special honors were received by several freshmen. Jan Moren won the grand prize in the essay contest on "Thrift" sponsored by the Worcester Savings and Loan Association. Jacquelyn Beaton received honorable mention in the same contest.

Richard Nadolink and Bruce Owen were Science Achievement Award winners, with Bruce winning a National award and Dick receiving honorable mention in the New England District.

After the drudgery of midyears, the call came for the spring sports—baseball, softball, and track. Each of these teams was nobly supported by members of our class.

As our freshman year came to a close, we all scattered about for summer vacation, trying to ignore the fact that there were three years of school work still ahead of us.

When our sophomore year was under way, we again elected class officers. The results remained unchanged except that Brenda Moorey was now president. Our former members returned to the Student Council, and Harry Hicks was our only new addition.

The trend toward participation in varied extracurricular activities continued. Many flocked to the support of the Office and Library staffs, the Dramatic Club, Biology Club, Debating Club, French Club, and Band.

The *Reflector* was boosted by Sandra Lindberg, Helen Kinniery, Bruce Owen, Brenda Moorey, Betty Vegnone, Mary Jane Faron, William Monigle, Kathleen Lilley, Kathleen Weldon, and Gail Johnson.

The Glee Club received our loyal support, as nineteen of its members hailed from our class.

This year's dramatic effort *The Little Dog Laughed* was a real hit through the efforts of Wilfrid Dufour, David Broad, Bruce Owen, and Gail Vaillancourt.

The return of fall sports marked an increase in participation, especially by the boys. Members of the football team were Brian Modig, James Kallstrom, David Broad, Chester Stencel, Ronald Stokowski, James Graves, Richard Gonyea, Robert Carrignan, Frank Parella, and Ronald Tebo. On the girls' field hockey team were Joanne Beaudoin, Gail Vaillancourt, Kathy Kotel, Mary Jane Faron, Barbara Santon, Dorothy Frost, Betty Vegnone, and Judy Krumsiek.

The girls' and boys' basketball teams continued to attract many. The girls' team, however, sported four new members: Caron Matta, Betty Vegnone, Eva Raad, and Betty Reeves.

As spring arrived, so did baseball, softball, and track. Robert Taft, Frank Parella, John Friberg, Richard Gonyea, Wayne LeBlond, and Robert Nicoletti were our members of the baseball team. Our contributions to the softball team were Caron Matta, Janice Lundgren, Judy Krumsiek, Barbara Santon, Lois Gilbert, Eva Raad, and Brenda Moorey. The track team featured Jan Moren, Robert Carrignan, Louis Rocheleau, Charles Adams, David Broad, Paul MacKenzie, and Richard White from our class.

Before we knew it, summer crept upon the horizon, and our long awaited vacation was again before us.

In September we returned to school as upperclassmen and displayed our badges of distinction; namely, our class rings, which had been selected by the members of the Ring Committee—Frank Parella, Betty Ann Reeves, Betty Vegnone, Gail Johnson, and Robert Taft. The election of class officers resulted in no change from the previous year. Those representing our class on the Student Council were Brenda Moorey, William Zetterlund, Betty Ann Reeves, Kathleen Weldon, and Elaine Wishneski.

Once again our class did its share to support the Office and Library staffs, the Band, the Biology, French, Debating, Dramatic, and Glee Clubs while the *Reflector* staff had nine new members—Elaine Wishneski, Judy Vostok, Beverly Akstin, Ellen Molis, Gail Vaillancourt, Donna Couture, Robert Nicoletti, Richard Nadolink, and Wilfrid Dufour.

For the first time, members of our class ventured forth into the Science Club. The following joined: Sandra Lindberg, Betty Vegnone, Wilfrid Dufour, Richard Nadolink, Jan Moren, Denis Jocz, David Broad, Ronald Stokowski, Francis Blanchard, William Zetterlund, Richard Vassar, John Friberg, James Kallstrom, and Bonnie Merrill.

This year two of our classmates, Wilfrid Dufour and Brenda Moorey, starred in the school play *The Inner Willy*.

The football team gathered some valuable new members—Robert Taft, Dennis Warren, Paul MacKenzie, Bernard Holland, James Sclar, and David Turner. New recruits for the girls' field hockey team were Jacquelyn Beaton, Janice Lundgren, and Helen Kinniery.

Junior girls on the basketball team were Noreen Sibley, Arline Nelson, Janice Lundgren, Gloria Russell, Gail Johnson, Caron Matta, Eva Raad, Betty Ann Reeves, and Kathleen Aubin; and on the boys' team were Richard Gonyea, Louis Rocheleau, William Zetterlund, Robert Carrignan, Frank Parella, and Robert Taft.

With the coming of spring weather, we began to look forward expectantly to our first prom. We elected Judy Vostok, Betty Vegnone, Louella Allaire, Ellen Molis, and Eva Raad to the Ticket Committee. The Decorating Committee was composed of Brenda Moorey, Betty Ann Reeves, Betty Vegnone, Kathleen Weldon, Beverly Akstin, David Turner, and John Valdes. On the Orchestra Committee were William Zetterlund, Richard Nadolink, and Wilfrid Dufour. On the big night Patricia Moorey was chosen queen, with the following juniors in the court: Brenda Moorey, Susan Keyes, and Bonnie Merrill.

Our class made a grand showing in the Annual Science Fair. First prize went to Evelyn Greene for her project on "Diabetes." Second prize was captured by Jan Moren and Wilfrid Dufour for their project "Mr. T. N. Kanz." Honorable mentions went to juniors James Kallstrom, Richard Nadolink, William Zetterlund, and Bonnie Merrill.

As the time for spring sports once more arrived, David Broad, Louis Rocheleau, Charles Adams, William Zetterlund, Robert Carrignan, Jan Moren, Denis Jocz, Richard White, Richard Nadolink, Paul MacKenzie, and David Turner made a terrific showing on the track team.

We were very happy to hear this year that Brenda Moorey and Elaine Wishneski had qualified as Horace Mann students by attaining an average of 90% or better for two consecutive years. We extended our congratulations to both.

Thus, our junior year came to an end, and we suddenly realized that our final year at M.M.H.S. would soon be upon us.

When we returned in September of 1960, there were several changes in administration. Mr. Beaton had succeeded Mr. Shea as superintendent of schools, and Mr. Shaw was our new principal. His assistants were Mr. Martin Roach and Mr. John Chadwick. Miss Diane Berthiaume was our new teacher of Problems of Democracy.

Knowing that this year would be one of hard work mingled with enjoyment, we promptly held our elections. They resulted in the following choices: Brenda Moorey, president; Elaine Wishneski, vice-president; Evelyn Greene, secretary; Noreen Sibley, treasurer; and Robert Taft, class captain. The same students returned once again to the Student Council.

The all important election of the *Aftermath* staff was next on the agenda. Chosen were Bruce Owen, as editor-in-chief, and Noreen Sibley and Elaine Wishneski as assistant editors. Madeleine Army and Evelyn Greene were appointed associate editors. The Advertising Committee was composed of Wilfrid Dufour, our business manager, ably assisted by Robert Carrignan, William Monigle, Brenda Moorey, Jan Moren, and William Zetterlund.

The first really enjoyable task which confronted us during our last year was the planning of our Senior Prom. The election of committees got hastily under way with Noreen Sibley, Elaine Wishneski, and Ellen Molis chosen for the Orchestra Committee; and Betty Vegnone, Madeleine Army, Gail Johnson, Kathleen Morin, for the Ticket Committee. Brenda Moorey, Beverly Akstin, Betty Ann Reeves, Betty Vegnone, Kathleen Weldon, Paul Trottier, David Turner, and John Valdes, the members of our Decorating Committee, made the night a tremendous success with their hours of hard work. Our queen was Betty Ann Reeves, with Susan Keyes the sole Senior Class contribution to the court.

Although we had many responsibilities to cope with, a great number still found time to take part in other activities offered, such as Band, Science, Biology, Dramatic, Debating, French, and Glee Clubs, Office and Library Staffs. In the realm of the *Reflector*, Bruce Owen was chosen editor-in-chief with assistant editors Elaine Wishneski and Mary Jane Faron. Members of the staff were Beverly Akstin, William Monigle, John Valdes, Madelyn Lola, Helen Kinniery, Judy Vostok, Betty Vegnone, Ellen Molis, Kathleen Weldon, Sandra Lindberg, Linda Danforth, Barbara Santon, Brenda Moorey, Kathleen Kotel, Gail Vaillancourt, Richard Nadolink, Noreen Sibley, Bonnie Madsen, Richard Jacques, Robert Carrignan, Robert Nicoletti, Kathleen Lilley, Joanne Beaudoin, Judy Krumsiek, Jean Cote, Nancy Lachapelle, Carol James, Donna Couture, and Bonnie Merrill.

The girls' field hockey team made an excellent showing by pocketing an undefeated season for which the members of the team received sweaters. Senior hockey players were Betty Vegnone, Barbara Santon, Gail Vaillancourt, Helen Kinniery, Joanne Beaudoin, Judy Krumsiek, Mary Jane Faron, and Jacquelyn Beaton. Members of the football team captained by Richard Gonyea were Robert Taft, Robert Carrignan, Ronald Tebo, James Graves, Frank Parella, James Kallstrom, Richard Nadolink, and James Sclar.

This year's play *The Other You* displayed the dramatic talents of several of our classmates—Wilfrid Dufour, David Broad, Gail Vaillancourt, Betty Vegnone, Norma Curtis, and Ellen Molis.

After another election, Noreen Sibley was chosen as our D.A.R. representative, and our Student Government Day representative was William Zetterlund.

Although the girls' basketball team made an excellent showing, the boys really did themselves proud by winning first place in the Blackstone Valley League, the Larger Schools' Championship at the Clark Tournament, and also the Class B division of the Bay State Basketball Tournament. Senior members of the championship team were Robert Taft, Robert Carrignan, Frank Parella, William Zetterlund, Richard Gonyea, and Robert Nicoletti.

Several high honors were bestowed on our school and on several of our classmates. Elaine Wishneski won the $2300 New England Scholastic Press Association scholarship to Boston University in competition with editors of school papers from all over New England. Our *Reflector* received the "Highest" award in its class at the annual Boston University Scholastic Press Association competition, and for the sixth consecutive year it was awarded the coveted "First Place" rating in the annual contest sponsored by the Columbia University Scholastic Press Association.

Also we learned that Bruce Owen had qualified as a Merit Scholar. David Broad and William Zetterlund received "Letters of Commendation" for outstanding performance in the same test.

The Science Fair held in March was again a great success. Top prizes went to Jan Moren for his project entitled "Thermo-electric Conversion of Heat to Electricity" and to Jacquelyn Beaton and Barbara Santon for their project "Experimental Behavior of the Mouse." Honorable mentions were gained by Bruce Owen, David Broad, James Kallstrom, Richard Nadolink, and Louis Rocheleau. Jan later went on to win the "Yankee Ingenuity" award at Worcester Tech, entitling him to a $1400 scholarship.

As spring vacation drew near, members of the Washington Club awaited the beginning of their never-to-be-forgotten trip. Those making the trip were Jacquelyn Beaton, David Broad, Nancy Chase, Ann Dulmaine, Norma Curtis, Alfred Fitton, Bernard Holland, Gail Johnson, James Kallstrom, John Kennedy, Helen Kinniery, Wayne LeBlond, William Monigle, Jan Moren, Richard Nadolink, James Nickerson, Frank Parella, Louis Rocheleau, Gloria Russell, Chester Stencel, Robert Taft, Kathleen Weldon, Elaine Wishneski, Karen Whittemore, William Zetterlund, and Wilfrid Dufour. Chaperones for the trip were Mr. and Mrs. Roger Bourdeau, who deserve many thanks from the entire group.

As the time for spring sports rolled around for the last time during our four years at M.M.H.S., many of the seniors worked up a final burst of energy and flocked to the support of the several teams. Each of the teams was strongly backed and headed for a successful season.

As Class Day and graduation drew nearer, the excitement of all mounted. Mr. Shaw announced the Senior Honor Students: Philip Nyberg, Elaine Wishneski, Bruce Owen, Madeleine Army, Brenda Moorey, David Broad, Jacquelyn Beaton, Sandra Lindberg, Bonnie Madsen, William Zetterlund, Noreen Sibley, and Bonnie Merrill. Of these twelve, the top four students—Philip Nyberg, Elaine Wishneski, Bruce Owen and Madeleine Army—are to be the speakers for graduation.

This year M.M.H.S. initiated a new "first" in the history of the school by founding the National Honor Society Chapter at M.M.H.S. Seniors elected to the society by the Faculty Council were Madeleine Army, Jacquelyn Beaton, David Broad, Mary Jane Faron, Bonnie Madsen, William Monigle, Ellen Molis, Brenda Moorey, Jan Moren, Philip Nyberg, Bruce Owen, Noreen Sibley, Kathleen Weldon, Elaine Wishneski, William Zetterlund, and Bonnie Merrill.

The spring of '61 was an especially eventful one, for members of our class received many special honors. Bruce Owen placed in the Honor Group of the Westinghouse Science Talent Search, and he was a second prize winner in the poetry contest sponsored by *Scholastic Magazine*. One of his short stories was published in the *D'Youville Anthology,* and he received a savings bond from the Worcester Branch of the American League of Pen Women for his prize-winning editorial. Another promising writer, Richard Nadolink, had several poems published in *Young America Sings,* the Anthology of the National High School Poetry Association.

Elections to determine Class Day speakers and committees were among the last official duties of our class. Class Day speakers chosen were Betty Vegnone, Statistics; Bonnie Madsen, Prophecy; Kathleen Aubin, Omissions and Corrections; Wilfrid Dufour, Last Will and Testament; Betty Ann Reeves, Class Gifts; and Bonnie Merrill, Class History.

Members of the Motto Committee were Louella Allaire, Richard Nadolink, and Thomas Quigley; of the Class Song Committee, Kathleen Lilley, Ellen Molis, and Kathleen Morin; and of the Tie Committee, Richard Gonyea, Paul MacKenzie, and William Zetterlund.

There were also two other committees, the Invitation and Decorating Committees. The former consisted of Joanne Beaudoin, Mary Jane Faron, Susan Keyes, Eva Raad, and Barbara Santon; and the latter was comprised of Robert Carrignan, David Turner, and Kathleen Weldon.

June 1961—

This brings us to the last passage of my diary, a diary which represents the past four years. The closing of these time-worn covers marks the end of a chapter in each of our lives, and, in turn, marks the beginning of many more happy and eventful ones to come.

THE PAST INTERPRETS THE PRESENT

This is the Atomic Age; an age of nuclear reactors, guided missiles, and scientific discoveries of which even a Buck Rogers never dreamed. Yet in spite of the futuramic tendencies of this futuramic age, are we, as a generation, living more in the past than we allow ourselves to realize? Although dates on the calendar change, people, human beings like you and me, really seem to change very little. For example, the "younger generation" of twenty years ago, comprising most of the parents of today's "younger generation," was not so very different from the young people which they now criticize in 1961.

Do you remember what it was like twenty years ago, about 1941? The furor that an Austrian sign painter made in Europe then is not so very unlike the trouble stirred up by the Ukrainian farmer sitting in the Kremlin today. Apprehension prevailed around the world: then in China, today in Laos; then in Ethiopia, today in the Congo. The "New Deal" was giving a real lift to the American economy then as the present program of "New Frontiers" is doing today. The young people were a little different, in that they expected they had to work for the small amounts of money they received; today many young people believe it is the world that owes *them* a living. Everyone then listened to the fifty-four million radios the way that most of us watch our several million television sets now.

It was also the end of the Great Depression, with a promise for greater things and better times. It was fulfilled too—in war productions and defense materials. These were given a real boost on December 7, 1941, that "day of infamy" which plunged the United States into the center of a global war. Today, after a period of recession (we don't have depressions anymore, thank goodness) the promise is again for "greater things and better times." Whether or not this promise takes the same form it took twenty years ago is utter speculation, but Heaven help us if it does.

Movies rose to new heights as a medium of public entertainment, as some eighty million Americans attended each week. Now almost that same number stay up late nights to watch the same movies on television. It was then also that people began to believe there really were such things as atoms and nuclei. Even the most staunch scoffer had to admit there was some truth to Einstein's crazy theory after such incidents as Hiroshima and Nagasaki. Today this same atomic power is adapted to cure our diseases, light our homes, and even to power the rockets which may someday carry us through outer space.

At this point it is evident that many parallels can be observed between these two selected periods. Perhaps these parallels could then be extended to the future also. But many fakes, fortune tellers, crystal gazers, and the like have tried to "foretell" the future and it is probably just as well that most of them have been removed from circulation in the interests of justice, for who can say that this or that will occur tomorrow? The future lies before us like a misty cloud through which we cannot see, while the past is there to read like an open book. It shows man's many mistakes made heretofore with the message which we hopefully believe is as clear to the Russians as it is to us: Never make the same mistake twice; for as Patrick Henry put it, "I know of no way of judging the future but by the past."

While traveling in this train of thought, however, it is well to remember not to be like the child who walks backwards to see where he has been, and trips himself for lack of seeing where he is going. Using the past as a telescope to view the present and future will only work as long as our attention remains focused on the present and future.

Indeed, "these are the times which try men's souls," for we are engaged in a life-or-death battle of wits with the fatal forces of evil. We must use every opportunity to look ahead and anticipate our moves, as if playing in a gigantic chess game, a game in which the stakes have become the freedom or the enslavement or even the continued existence of the world. We cannot, we must not be blind to the patterns of the past in choosing our course to the future. Archimedes, referring to the use of the lever, once said, "Give me a place to stand on and I will move the earth." In this same way we must use the lever of history to move our world in the direction we wish it to go. Unfortunately it isn't as easy as that. We must not be like the man who walks along, so engrossed in his newspaper and oblivious to all else, that he is hit by a car while crossing the street. We cannot afford to concentrate so much on past theory that we lose sight of the present fact and must pay the consequences, for as former President Dwight D. Eisenhower recently stated: "There is little reason for me or anyone else to think and talk of or to live in the past, smugly hugging to himself memories of successes or futilely bewailing setbacks. The task is to use the past and its experiences to help us peer more clearly into the future, and to do our best to make it better."

Plainly, then, we have our work cut out for us. It will not be easy, but insuring freedom has never been easy. If we can remember to use the lessons learned in the past to help interpret the present, then we can insure a better future. Indeed, we must, if the free world is to survive.

CLASS PROPHECY

The time is June, 1972. I am the private secretary of that fabulous millionaire (I should say billionaire) *H. Louis Rocheleau*. Eleven years ago my boss was just a lone voice in the high school glee club. Now he has succeeded Lawrence Melchior at the Metropolitan Opera.

Last September I set out for my annual paid vacation, a trip around the world, while Mr. Rocheleau rested his famous voice and his manager, *Bernard Holland*, booked appearances for next season. Before my departure that tintinnabulating tenor made a suggestion which turned out to be a lot of fun. "Since I've made so much money, I think I'd like to give a million away," he said. "Why don't you make this trip a search? Look for members of the Class of '61 and decide which one is most worthy of a million dollars." As you can easily see, my employer has a great deal of faith in my judgment.

To make the trip more pleasant, I was encouraged to invite a friend to accompany me. Naturally I chose that famous linguist, *Miss Gail Johnson*.

Before departing, I ordered my favorite ice cream, Cutowang, from Smithfield's Worcester County chain, now owned and operated by *Louella Allaire, Kathy Kotel, Dennis Jocz,* and *Fran Blanchard*.

All our expenses were to be recorded by our accountant's wife and secretary, the former *Miss Kathy Aubin*. Of course we took out a few extra insurance policies at M.P.A. (Millbury Protective Association), where we were assisted by *Nancy Lachapelle, Janet Platts, Judy Laperriere, Pauline Roy,* and *Lois Lambert*. All were married and had new names except Pauline, who was still going steady and saving money so that she might buy a controlling interest in the company.

Knowing that we'd want tonic to replace the unpleasant drinking water in Europe, we stopped at National Beverage Company, where we were assisted by their pleasant secretary, *Madelyn Lola*. She quickly had three dozen cases of tonic driven to our office on Graton Street by *Lester Andros*.

We also ordered a large supply of *Ron Tebo's* tasty fruits to take with us. They, too, were promptly delivered by *Bob Trottier*.

It was finally time to leave. Gail and I had decided to hit the cold spots first and finish our trip in the warmer districts.

The Hicks Twins' Inc. Jet Service was hired for the trip. I quickly checked *Harry and Larry* off the boss's list plus their able pilot, *Dave Turner,* and their two lovely stewardesses, *Betty Reeves* and *Eva Raad*.

First stop, Alaska! Only seconds after our arrival, *Jack Friberg*, a former Science Club president, rushed up, trying to sell us a refrigerator—of all things. Jack told us that *Jim Masters* and *Richard Dunn* were in Alaska too, making money in the heating business—the best prospect for that part of the globe.

Next stop, Russia, our allies since Khrushchev's suicide in 1969. *Elaine Wishneski's* Russian-English newspaper told us of three Americans who were helping to establish a strong democracy there. These three were *Bob Nicoletti,* our Secretary of the Treasury; *Paul MacKenzie,* our friendly Secretary of State; and *Tom Quigley*, a leader in our armed forces.

While dining several days later in a quaint restaurant in sunny Italy, we found the name of Head Chef *Jim Graves* on the menu. The name didn't sound very Italian, but he surely could cook! *Judy Koziara* and *Maryann Renauld* surprised us by appearing as waitresses at this fabulous spot.

Our longest stay anywhere was in gay Paree, where we saw an outstanding fashion show. Among the company of graceful touring models introduced were *Linda Lee* and *Ann Dulmaine*.

Taking notes on Parisian hair styles were *Paulette DiPilato,* a famous American hair stylist, and her advisory expert on hair coloring, *Patricia Moorey*. They told us of other '61 graduates working with them in New York; namely, *Joanne Beaudoin, Jane Wunschel,* and *Norma Curtis*.

After a long ride to Australia, we saw *Paul Dane* rounding up kangaroos for his zoo with the help of *Paul Fortin* and *Art Havalotti*.

Then to Laos, where we visited a missionary hospital. Under the direction of Rev. *David L. Broad, Janie Faron, Evelyn Greene,* and *Judy Vostok* (their dental expert), were doing a tremendous job, comparable to that of Dr. Tom Dooley.

Our next stop was England. From the time we left our plane, we heard rave notices about the fabulous "Poet Laureate Duet" comprised of *Karen Whittemore* and *Dick Nadolink*. We even found them listed in the British edition of *MAD* Magazine, editor of which was *Jim Kallstrom* (better known as Alfred E. Newman). Three noted American scientists, *Bruce Owen, Phil Nyberg,* and *Jan Moren* had hilarious columns in the magazine.

When we realized how quickly our vacation was passing we boarded the next jet and flew so swiftly to the United States that both my companion and I became ill. After our arrival, however, *Jim Nickerson* sold us some effective jetsick pills at his airport drugstore. He informed us that *Robert Auger* and *Al Fitton* were efficiently managing his two other branch stores.

Later that evening in a Hollywood night club, we listened to the spectacular voices of the Sabrinas, consisting of *Ellen Molis, Kathy Morin,* and *Betty Vegnone,* singing their own arrangement of "Blue Moon."

A hilarious comedy skit entitled "The Washington Club Wake-

a-thon" by *Bob Taft* and *Marilyn Resseguie* ended the floor show with a bang. Even the famous Hollywood critic *Dick Jacques* and his ever faithful secretary, *Gerry Kleiza*, approved of the show.

Since jets made us ill, we decided to rent a car from the nation-wide W-W Rent-a-Car Service owned by *Dave Williams* and *Dick Whitten*. Their right hand man, *Dick Hackett*, suggested a "Safety-car," and we consented. Our driver was *Roger Rock*, and his navigator was *Denis Arsenault*.

That evening we saw two great features at a Hollywood movie house. *Jimmy II* was the main attraction, starring the boss's classmate, *Jim Stewart*, and co-starring the villainous *Art Vick*. The second feature, equally as entertaining was *Return of the Three Stooges*, starring our own *Chet Stencel*, *Wil Dufour*, and *Wayne LeBlond*.

In Texas a few days later, we rested comfortably at a horse ranch owned by *Arlene Lucas*. There we enjoyed delicious meals cooked by *Donna Couture*. Excellent riding instructors, *Lillian Soulor* and *Bert Kupcinskas*, taught Gail and me how to sit a Western saddle. In no time we were experts.

Unfortunately, on our way to Florida, our "Safety-car" ran into a tree. At the "Smooth 'em Out" Auto Body Shop it was fixed in a jiffy. Owner *Henry Ervin* looked on as *Mark Dana*, *Paul Trottier*, *Jim Racicot*, and *Dennis Warren* did a remarkable job on the mangled auto. Their bookkeeper, *Joe Wilbur*, priced the job, and we paid him in full.

While in the Sunshine State we were well taken care of at the beautiful "Slumberville Motel," owned by *Susan Keyes* and managed by *Ron Stokowski*.

At the picturesque Cypress Gardens the following morning we found, to our surprise, *Nancy Lewis* and *Bonnie Merrill* dancing on water skis and looking lovelier than ever.

The next few days were spent learning how to land one of Florida's many wealthy bachelors. Nu Nu's Charm School gave us tips on speech, dress, and manners. *Noreen Sibley*, its founder, was assisted by an excellent staff comprised of *Carol James*, *Sherron Garner*, and *Jean Cote*.

At Cecile's Dance Studio (too often mispronounced Cecil's) we mastered the intricate steps of the cutow-wow, currently more popular than the cha-cha of the '60's. Owner *Cecile Army* also had a capable staff: *Paula Santomenno*, *Caron Matta*, *Brian Modig*, *Larry Mitchell*, and *Bob Turgeon*. I assure you both schools were tops, but we continued along as bachelor girls.

Washington, D. C., was our next long stop. As we entered, the city traffic was held up by the famous "Millbury Women's Fife and Drum Corps," led by their yet vivacious majorette *Gloria Russell*. *Pat Hamilton* sounded a drum, and *Sandra Bisel* played a fife.

While in Washington we hired the most efficient touring service available, owned and operated by *Kathy Weldon* and *Bill Zetterlund*, sincere lovers of our nation's capital since that memorable week in '61.

At the White House we saw President *John Bennett Kennedy* (a former member of the class of '61) conversing with his Spanish interpreter, *John Valdes*, about Cuba, our new 51st state.

As we toured the famous Library of Congress, we met several former Millbury High librarians. Those working with *Kathy Lilley* (former librarian of Fabulous 21) were *Bev Brady*, *Therese Snow*, *Betty Robbins*, and *Janet Carlstrom*. All have new racing bikes to cover the 13½ acres over which the library buildings are spread.

In New York we stopped to watch an exhibition game. The first-place Red Sox were playing the Maroon Knee Lengths. Stars on the former team included *Frank Parella*, *Doug Morin* (a promising newcomer), and *Bob Carrignan*, with *Dick Gonyea* as coach. *Lois Gilbert* coached the winning Knee Lengths, among whom were *Judy Krumsiek*, *Nancy Chase*, *Arline Nelson* and *Shirley Masse*.

When I phoned the office to say that my mission was almost accomplished, our receptionist, the former *Miss Janice Lundgren*, told me that an invitation to a faculty banquet at Holy Cross College the following evening was waiting for an R.S.V.P. Naturally I would attend, for I had heard about the revolutionary new staff that was proving so successful. Among new department heads were *Sandra Lindberg*, biology; *Linda Danforth*, history; *Madeleine Army*, English; and *Helen Kinniery*, French. *Jackie Beaton* and *Barbara Santon* were the new deans responsible for the recognition of Holy Cross as the best mice training center in the country.

En route to Millbury I dropped my forty rolls of film off at the "Same-Hour-Service Photo Shop." *Ken Comptois*, assisted by *Kathy Ducharme*, quickly developed the films. The many beautiful enlargements were expertly painted by *Bev Akstin* and *Gail Vaillancourt*.

My world tour was over, and I was sure that Louis would be pleased with the results of my campaign CONTACT. I had renewed acquaintances with members of the Class of '61 who were now located all over the world. However, I felt I should also make eligible for the million dollars those in our immediate vicinity. For example, *Stan Samko* of "Samko Cleaners While U Wait" visits the Rocheleau mansion bi-weekly. I see *Bill Ducharme* almost every Friday evening at the Westboro Speedway, and on Sundays I wouldn't miss *Virginia Boria* at the Orange drag races. On my days off I watch *Charlie Adams*, who races a large variety of sports cars at Thompson's Speedway. *Kent Taft* of the "Taft Oil Company" makes an automatic delivery to the office and mansion once a month. The company's ace oil burner service man, *Dick Vassar*, cleans and services our burners each fall.

Personal friends as well as business associates include Attorney *Bill Monigle* and his attractive secretary *Brenda Moorey*. Chauffeur of the Cadillac, *Dickie White* (better known as "Peeps"), reminisces with me as does *Jim Sclar* when I arrange the boss's semi-annual trade of his Jaguar.

Well, we finally learned about all the '61'ers. Actually, my task of deciding who would receive the million dollar gift was easy, since everyone was doing so well. Half was given to the missionaries under Rev. Broad in Laos, and the other half to *Mr. Kenary* so he could retire after a terrific job of advising the now internationally famous Class of '61.

Now I think I'll take another long vacation, but I'll rest this time.

OMMISSIONS AND CORRECTIONS

It was June, 1981, and graduation night for my eldest daughter. As I entered the doors of Millbury Memorial High School, fond memories returned. Here, in this school, I had spent the best years of my life.

As I entered the auditorium a familiar voice called to me. I turned to see my old classmate Bonnie Madsen. In answer to my curious expression, she explained that she had been teaching at Millbury High School for fifteen years and that just recently she had been promoted to assistant principal.

Since the exercises were about to begin, we found our seats. It seemed as if just yesterday we were graduating.

WHAT IS OUR NATIONAL PURPOSE?

In these rapidly moving and changing times—these frightening times—it is necessary for us, as Americans, to withdraw briefly from the tumult and shouting of world affairs and re-examine our national purpose. This purpose is being adapted to the times, and, yet, it has never been more necessary for the American public to know about it and take part in fulfilling it. Let us briefly trace the history of the American purpose and observe how the challenges to it have become more and more formidable, and the answers to these challenges have been less and less effective.

In 1776, at the time of the Declaration of Independence, the national purpose was freedom from the British; this challenge was answered by the War of Independence. Fifty years later, in the age of Andrew Jackson, the common man was rising, politically and economically. The nation was expanding westward, and, thus, the American purpose became materialistic. This expansion, however, introduced the slavery question—a new question of purpose. Lincoln, the Great Emancipator, unequivocally answered this question when he made all Americans free, regardless of color. The fundamental American purpose—to make all Americans free and to encourage the spread of freedom on earth—had then clearly emerged. After the Reconstruction, the young United States again exploded westward, industrialization grew, and the national purpose was vigorously upheld.

With the advent of the 20th Century, however, America seemed more interested in economic conquests than in her purpose. Monopolies and trusts were prevalent, and most of America's wealth was concentrated in the hands of a few. Fortunately, a young, energetic man named Theodore Roosevelt helped to pull her through this crisis. Several years later, in 1917, the following words were spoken by Woodrow Wilson in his war message: "The world must be made safe for democracy. Its peace must be planted upon the tested foundations of political liberty. We shall fight for the things which we have always carried nearest our hearts—for democracy." These words expressed a new facet of the national purpose—that the United States is willing to fight to uphold her ideals. This was illustrated in World Wars I and II.

Fifteen years ago, out of the ruins of a second World War, there arose a new challenge to the American purpose. Communism reared its ugly head. Since then, the American government has done much to answer this challenge. It has spent $565 billion in attempting to check its growth; American soldiers in vast numbers have watched its frontiers to prevent it from swallowing the surrounding countries. These efforts, however, are far from enough. As long as Communism continues to increase in magnitude by forcefully absorbing small countries such as Laos; as long as Communism continues to undermine, through propaganda, the youth of the United States; as long as Communism remains a threat to humanity, then the fundamental part of our national purpose is not being fulfilled. How, then, can the growth of Communism be checked? Not by the use of military force—the United States could easily smash the Castro regime in Cuba and rout the Communists in Laos, but this would only aggravate the crisis. It is essential that atomic war be prevented—the reasons for this are horribly evident to everyone today. If there is a nuclear war, total annihilation of the human race is practically inevitable, and this is not the answer. The growth of Communism can be checked only if we, the American people, realize that the responsibility lies not solely with our government but with us. It is urgently necessary that we realize the proximity and the reality of Communism; this is difficult, as this threat is remote from and unfamiliar to our day-to-day lives, but it must be done. We must not be complacent about this threat to our national purpose. We must understand Communism and its motives, and we must, under the leadership of our government, fight it, using the utmost of our energy, talents, time, and money.

Perhaps the most important way we have of preserving our national purpose, however, is to impress on our youth the importance of American ideals. It is essential to the American purpose that these be staunchly upheld and passed on to the young people, some of whom are sorely in need of them. It is astounding, and even shocking, to observe the moral disintegration of some of today's youth. They cannot discern right from wrong, simply because they have no standards. This, however, is not entirely their fault. Any fair minded person will admit the difficulty of formulating standards when the world is rampant with immorality, disrespect for authority, corruption of family life, and abuses of all kinds. Fortunately, the thinking of these young people is now the exception to the rule, but if the present trend is allowed to continue, it could very well become the rule. And, after all, aren't youth the upholders of today's national purpose and the shapers of the national purpose of the future? This important burden cannot be placed on weak shoulders, for those entrusted with public office have a moral as well as a political responsibility to the American people. Insure the ideals of the American youth, and you'll insure America's future. This is a vital part of the American purpose.

While speaking of our national purpose during the last presidential campaign, Richard M. Nixon made the following statement: "Our resolve is running strong." What does this mean to us? It means that each and every American must endeavor to keep that resolve running strong and stronger if the American way of life—if the American national purpose—is to prevail.

WHY ARE WE HERE?

Why are we here? What is the purpose of our lives? Are we here to serve God? Are we here to serve ourselves? Or are we here to follow like blind, blinking sheep in the muddy, time-gouged footsteps of the flock? Will we die with ulcers contracted from the scratch and grub of everyday selfish living, without ever a glance at things higher than an altar every Sunday? The man who travels the thread of his own destiny without answering these questions is truly a blind man—or a dishonest one, dishonest with himself.

Will we be like the man who perceives before him a clear, brisk autumn stream, bubbling over sunny-smooth stones, surrounded by a rainbowed aurora of color, and accompanied by the sweet symphony of nature's secret sounds? Will we be like the man who sees this and thinks of his water bill?

Herein lies the danger of our enclosed, complicated, modern lives. Are we becoming blind moles burrowing just inches away from the surface, just a hair's breadth from life and light? Yes, it's true, one cannot live on love or beauty. But this does not mean that each man cannot be a poet unto himself, writing beauty on golden scrolls and storing them in the vaulted library of his mind, his holy mind.

We here are children going out into this world of troubles. We will survive and achieve happiness, or we will lose sight of light and love and beauty and become senseless creatures, fed on petty circumstance, living on others' time.

All is not good in this world of ours. Except possibly for a few moments 2,000 years ago, there has not been peace on earth for a billion years—and there may never be. There is an overwhelming quantity of lust, greed, sickness, and evil out there. We must of necessity live with it—and we shall die with it. The measure of our lives will be how far we rose above it.

If only once a year, we must sit by ourselves and light a candle in the darkest corner of our minds. We must examine the wonder of all that surrounds us. And then we must return to mundane things—but with a greater understanding, a greater appreciation, and an ability to rise above pettiness.

And by what shall we justify our physical lives? When we achieve metaphysical realization and spiritual happiness, shall we then lie and vegetate? No! We all must produce. What we produce is not at all important. One of us may create ideas, another, bottle caps. What we must, however, create, is something worth creating. The ideas must be good ideas, the bottle caps, good bottle caps.

Creative productivity is the basis of our whole society. If we shun it, we are shunning civilization. A man shall live by his trade, and it must be his best trade, and he must excel in it if only to justify himself to himself.

It is now that we must decide to do these things. It is now that we must decide why we are here. It is now—or never. We will never be more ready to accept life on its own terms than we are today. We will never have a better opportunity for achieving fulfillment.

Some of us may decide upon a wrong goal. But isn't he who has any goal infinitely better off than one who has nothing to work toward? What kind of man will go all through life with nothing, nothing ahead of him? Won't he very soon succumb to the rush about him and be trampled in the press? Yes, each of us must decide here, now, what we are here for, what we shall live for, and then we must truly live for it. Right or wrong, the goal we choose is a kind of justice in itself, whether it be appreciation, or love, or worldly things, or God.

And above all, we must be honest with ourselves. We must admit our goal and actively pursue it, give our lives a running theme like a book, have continuity of purpose. We shall lose ourselves occasionally in the swirl of existence, but each time we will rise above the muddy water, struggle up onto the sturdy rock of thought and look out and inward. We will know why we are here. We will see nature's running brook, and let it justify itself. We will light that candle in the crannies of our minds. We will do, occasionally, what we believe is right, and not trample reason with the herd. And if we must deceive the world, at least we will be honest with ourselves. When we are shouting with the mob, we shall hold that candle tight and not lose our sacred identity. Each of us on earth must own up to one judge—himself. In the immortal words of William Shakespeare: "To thine own self be true, and it must follow as the night the day, thou canst not then be false to any man."

CONSERVATION OF DEMOCRACY

We, the American people, are the recipients of a great heritage. Our freedom was fought for and won by our ancestors. It must be preserved by us. We can and should be thankful that we live in a democracy where the government derives its powers from the consent of the governed.

What are characteristics of our American democracy?—Equality of opportunity, free enterprise and competition, the right of private property, belief in one God, morality, the sanctity of the home, and the sanctity of human life. Today these principles are being threatened by a terrific force.

Since the overthrow of the Czar of Russia in 1917, Communism has gained in importance until it now threatens every country, family, and individual. With the overthrow of Batista, we cheered—only to find that Castro permitted Communism to gain a strong foothold in Cuba, only 90 miles from our shores. This is the very first time that Communism has been accepted as a form of government in the Western Hemisphere. What does this mean? It means that the Communists are accomplishing their goal. They have dominated European countries and are planning to conquer the Western Hemisphere. The threat of war has made all Americans realize how urgent national defense really is. They realize that sufficient military preparedness is not enough; it must be more than adequate. People are wondering about two big questions: Will the possibility of war always be present? Is it possible for the free world to exist alongside Communism without World War III as a result?

The United Nations, organized in 1945, tried to remedy the world situation by providing an opportunity for greater co-operation among all nations. Although the U.N. has been of considerable help to many countries, the Soviets attempt and sometimes are successful in using their power to block any movement which would result in a gain made by the free world. To deal with these Soviets in the United Nations, Americans must persevere in making known the Western case and endeavor to settle the problems facing the world today. An armistice in Korea resulted from Western perseverance, and today other gains can be the product of our same persistence. A perfect example of this, today, is our conflict with the Soviets in the East-West Germany situation. We must maintain a firm stand here, for if Russia wins control of Germany she may well control Europe and the fate of civilization.

Under Communism a man cannot think for himself and must accept those decisions handed down by the dictator. In a democracy, on the other hand, each and every individual, protected by the freedom of speech, may form his own opinions about anything no matter how much they coincide or fail to coincide with those of others. He must not, however, render harm or injustice to anyone while doing so. Another one of the differences between democracy and communism is that in a democracy man has God-given rights, whereas under communism man has state-given rights which may be state-taken away. It seems, however, that many Americans abuse or fail to realize the many benefits of a democracy. As citizens they fail to recognize and accept their duties toward the United States which is something they must do in order to enjoy the rights and privileges of a United States citizen. For example, many do not feel responsible enough toward their country to be conscientious voters. They sometimes permit a person's religion or nationality to influence them when casting their ballot. Some people neglect their voting responsibility altogether. "A democracy will be as strong as the people who compose it," is a true statement and unless we, the people of America, face our responsibilities and undertake them conscientiously we will fail in perpetuating the democratic way of life.

Karl Marx once stated: "The cowardice and stupidity of the Western nations provide Russia with opportunities." Is this statement true? Do the American people know what is going on in other countries? Many Americans don't even know what is going on in their own country. It is time for every American to rise from his comfortable chair placed before the television set and do something about this ignorance, for an ignorant nation is the breeding place for Communism through acts of subversion. People succumb to propaganda and extravagant promises. Nevertheless, the modern-day citizen, although he realizes the threat of Communism, reasons that it is the President's duty to protect and save the country from peril. "Anyhow," he rationalizes, "what can one person do?" The citizen fails to realize that the President merely represents the people. The people themselves must work together, present their views, and co-operate with their representatives. With this shift of responsibility comes the attitude of indifference where the people lack eagerness to take an active interest in government affairs. How can we successfully combat Communism if we are unfamiliar with its goals and are completely unaware of the techniques used to attain its goals? Lack of knowledge and understanding of Communism accounts in part for its rapid spread to all parts of the world.

However, not only familiarity with Communism is important. To combat this menace, unity within our own country is needed. This means unity among citizens; unity in the form of co-operation within town, city, state, and nation toward better comprehension of world affairs; and unity in the form of support of our government and its policies. We must uphold our country in its fight against Communism, the most threatening menace of all times. Perhaps never before have the words of our great forefather, Abraham Lincoln, been so meaningful: "United we stand; divided we fall."
